Profile

Detail-oriented Safety and PV Specialist with over 5 years of experience in ICSR case processing, quality review, and regulatory submissions. Managed TMF completion and CAPA processes, ensuring timely completion of late logs. Skilled in Argus, Jasper, and MedDRA with expertise in literature review, GVP and submission. Recognized for training and supporting new associates, and collaborating with clients to address case-related queries. Adept in narrative drafting and proficient in Root Cause Analysis. Now seeking opportunities to leverage my experience and capabilities in academics to foster the growth of students. Also to guide by deep understanding of industrial, IT, healthcare and an unwavering commitment to student success.
